EXPERIENCE

Freelance UX designer, China- Suzhou

Jan 2022- PRESENT

I started to work as a freelance UX designer after I got my Google professional UX design certificate.

During my studies, I worked on three projects and tried to solve problems with my designs. You can check my portfolio [here](#).

After that, I started working on my own ideas and also designing for customers. I'm also learning web development (HTML, CSS, javascript, PHP). my portfolio is my work.

My UX Skills

- Empathizing with users by creating empathy maps, personas, user stories, and user journey maps
- Defining user pain points
- Ideating design solutions using Crazy Eights, How Might We, and competitive audits
- Creating wireframes and prototypes on paper and digitally
- Developing mockups using visual design elements and principles
- Designing in Figma and Adobe XD
- Conducting interviews and usability studies
- Considering accessibility at every point in the design process
- Intermediate knowledge of HTML, CSS, and JS.
